A team of Jordanian and French archaeologists said on Tuesday that it had found a roughly 9,000 year old shrine at a remote Neolithic site in Jordan's eastern desert. The ritual complex was found in a Neolithic campsite near large structures known as "desert kites," or mass traps that are believed to have been used to corral wild gazelles for slaughter. Such traps consist of two or more long stone walls converging toward an enclosure and are found scattered across the deserts of the West Asia. "The site is unique, first because of its preservation state.

Welcoming India's "independent" stand at the UN Security Council on Moscow's moves in eastern Ukraine, Russia's Acting Ambassador to India, Roman Babushkin, said that the new sanctions imposed on his country would not affect the delivery of the S400 missile system and other defence equipment that India had purchased from Russia. He stressed that the ongoing visit by Pakistan Prime Minister Imran Khan to Moscow would in no way affect India-Russia ties, adding that the Pakistan-Russia partnership does not envisage a defence relationship at present, and Russia stands firm on its policy that Kashmir is a bilateral dispute.

The second wave of the pandemic in India, when a national level lockdown was not imposed as during the first, failed to significantly alleviate economic distress and hunger among the poor. The survey, Hunger Watch2, was commissioned by the Right to Food Campaign and the Centre for Equity Studies during December 2021 and January 2022 to evaluate economic distress following the second wave. The two organisations conducted Hunger Watch1 from October to December in 2020 to measure the fallout of the first wave. As much as 66% of the respondents of the second survey said their incomes had decreased from the pre-pandemic level.

ANGADIAS

ANGADIAS

1.An FIR has been registered against three Mumbai Police officials for allegedly threatening Angadias and extorting money from them in south Mumbai. The Angadia system is a century-old parallel banking system in India. In this system, the traders send cash generally from one state to another through a person called Angadia that stands for courier.

2.It is by and large used in the jewellery business with Mumbai - Surat being the most popular route as they are two ends of the diamond trade. As the cash involved is huge and it is the responsibility of the Angadia to transfer cash from one state to another, they charge a nominal fee. Generally, it is the Gujarati, Marwari and Malbari community that are involved in the business.

3.Working - **The Angadia system works completely on trust as large sums, at times in crores, are involved. Generally, traders have the same Angadias for decades together. Usually, to verify authenticity, the trader will give any Rupee note to the Angadia and provide the number of the note to the recipient. It is only after the recipient confirms the note number that the Angadia will hand over the money to the person.**

4.Legality - While the Angadia system per se is legal, there hangs a cloud over the activity as it is suspected that a lot of times it is used to transfer unaccounted money. Since the business deals in cash and there is no account maintained for the same, there have been suspicions that it is also used for transfer of black money.
